## **YOUR GENERAL PROFESSIONAL TYPE**

You like to get things going, here and now. Your work and workplace should offer options to leave your personal mark. You have a strong fantasy. You are cut out for therapeutical work. You may be working with the subconscious mind. Or you may work on new technologies and other potentially disruptive inventions. You are involved in non-subjective, important matters of a timeless, principled nature. Your ego is subservient to that.

To you, work has a meaning in itself. It is also a way for you to contribute something meaningful to society, rather than pursuing personal interests. Money or status are of little or no importance to you.

You are a **Community** person. You are emotionally sensible and strongly attached to what you feel to be your home base, yet you are very precise in your thinking. You can be a housekeeping or care professional, or an historian. You tend to work in privately held rather than listed companies. You may work in family business, in small- to mid size enterprises or in any other community where everybody knows each other by name.

## **YOUR CORE SELF / PRIMARY ASPECTS**

You are a **Strategist**. You are a good negotiator, mediator and interpreter. You can build alliances. You have an eye for aesthetics. You are suited for businesses with a high value per item.

You are a strategic thinker rather than doer. Most battles are conceived and executed in your mind; you are balanced and controlled in your behavior.

## **YOUR CORE SELF / ADDITIONAL ASPECTS**

You are courageous and can motivate others well. You have a strong drive. You are 'a good sport' by nature and possibly into sports as well. You may bring the invisible to light. You are not good at truly listening to what other people have to say. Being tactful is something that does not come naturally to you.

You have an interest in current matters, foreign affairs, politics and religious or philosophical questions. You are a good observer and strategist.

## **YOUR CORE TALENTS / GENERAL**

You have a strong sensibility and a strong urge to identify with the outside world. You compensate this with precise thinking. You have lots of pride. You should learn to deal with your thirst for power.

## **YOUR CORE TALENTS / DOING**

You are energetic and pro-active. Rather than losing yourself in theorizing, you are good at learning by doing. You are an excellent trainer or coach, but also fit for the military, the world of sports or other occupations that involve physical effort and do not involve too much desk work.

You tend to take the lead in partnerships, which are likely to be full of vigor. You look for a competitive environment.

## **YOUR CORE TALENTS / THINKING**

You are a good legislator. You have a strong intellectual capacity. You are playing according to plan. You have a knack for language. You raise plenty of interesting questions.

## **SOME STRENGTHS...AND CHALLENGES**

You may successfully break away from limiting situations quite drastically and suddenly. Your world view may change abruptly; so may your social standing. The price you pay is estrangement from previous beliefs and / or peers.

You can be an executive coach or legislator. This can be a great way to deal with your mixed experiences with authority in general. Avoid exhausting yourself.

You are a good turnaround manager. This is a great profession for you to help you cope with your reluctance to deal with power matters and power abuse.

Beware of being stuck in future-oriented expectations instead of acting here and now on your behalf. You bring a strong vitality along with everything you do, provided you accept yourself. You shuttle between glowing fantasy and cold rationality. You tend to occupy yourself with other eras than the present (antiques, archives, history, future). You should be careful not to be exploited or scapegoated. You tend to be a bit paranoid, which is sometimes warranted but not always. You are able to 'be both poet and killer' and to turn deficits and losses into gains.

You can help the underprivileged. You may have a religious calling. This may be a good way to overcome your hurtful experiences of having been disadvantaged or mistreated.

## **YOUR WAY OF ASSET BUILDING**

You carry on relentlessly for wealth creation and material security. Your income and wealth may wax and wane. You are based in social configurations with rigid rules. You view money as a power tool. Money primarily serves to reinforce your authority and to get you up the ladder of success.

## **YOUR TYPE OF WORKING LIFE**

You are highly adaptive at the workplace, but you have limited patience and you need lots of variety. You rely on your gut-feeling when dealing with situations. You are sensitive to your working environment.

In your work, you like dealing with universal values and transformation processes. You are good at forecasting and trendwatching. You have a polymath talent and are suited for many types of work. Be sure that your plans are realistic.

You have the talent to become an artist or social worker. You may be good at diagnosing and alerting what is happening below the surface, beyond the here and now. You are good at solitary work.

## **YOUR PATH TO PERSONAL AND PROFESSIONAL GROWTH**

Don't shy away from healthy conflict to leverage your appeasing nature.

Do not escape permanently in a dream world, instead accept reality and what you can and should do in the here and now, so that dreams and ideals can fertilize instead of paralyze you.

## **YOUR RESULTS**

You are goal-oriented and operationally strong. You go with the flow when setting and fluidly adjusting your goals in life. You rely heavily on your intuition. Your destination is in understanding others and in developing your creativity. Your destination is determined by your fundamental ability to work on something new rather than aiming for prestige. You are an intellectual, legislator or communicator.

You may well be entrusted with political assignments. Your assignments may contain a certain exile or isolation for the greater good.

## **YOUR GENERAL ROLE IN SOCIETY**

Broadly, your position is in the **Individualist** stage, as opposed to the later Social and Governance stages. In the Individualist stage, the ego and its drive are predominant.

More specifically, yours is the **New Emergence** phase. Your focus is on dreams and ideals and you have a pioneering impulsiveness.

Within this phase, you have the position of **Experimenting Realist**.

You are fairly subjective and book results via trial and error. You favor intense toying and experiencing in a relatively closed, undisturbed environment. You have a strong wish to keep things simple.

Famous persons with this Experimenting Realist position: Steve Jobs, Benjamin Franklin, Bernard Montgomery, Erik Satie, Daniel Craig, David Gilmour, Paul Cezanne, Auguste Renoir, Richard Branson, Carlos Santana.

## **YOUR ABILITY TO HELP OTHERS**

You have a talent to help others develop good communication skills. You can create a great atmosphere for exchange of ideas and viewpoints.
